

The Combination

COMPANY PROFILE LISTING PRINT & ONLINE

presented by

Extend your Coverage through the Combination of Print and Online

With the company profile package you combine a print and digital presence in your topic area and reach more than 165,000 potential customers per month with your product presentations, videos and publications.

The Combination at a Glance

You can achieve the optimal print-digital combination of your advertising measures with the company profile package. Extend the coverage of your LABORPRAXIS print entry online or use the circulation of the printed magazine in addition to your digital company profile. With the company profile package you combine the advantages of print and digital advertising in the appropriate topic area.

Duration

The company profile package from print and digital has a duration of 12 months. The entry will be extended by one year at the valid list price unless a written cancellation is made within three months at the end of the contract.

Print Entry

Your print entry in LABORPRAXIS (format: 56.7 x 46.6 mm) is automatically generated from your digital company profile at www.laborpraxis.de.

Company Profile

The news from your company, products, events and job advertisements are displayed on our portal directly next to our editorial articles in a context-sensitive manner on the subject. Further information can be found at

www.laborpraxis.de/media/en/company-profile
