

**3D DESIGN &
MANUFACTURING**

presented by **ELEKTRONIK
PRAXIS**

Experience the Electronics Manufacturing of the Future

and present your company at the industry's most important conference
on 7 October 2020 in Würzburg.

Bridging the Gap between Research and Application

Short innovation cycles, an increase in product variety, and higher cost pressure call for new strategies in electronics manufacturing. At the same time, generative manufacturing processes as well as printed electronics have established themselves and meet the demands of the industry. When printed electronics, additive manufacturing, and smart production get together – what potential would that hold?

Get answers at our 3D Electronics Forum.

Target Group

- Production experts and decision makers in the industrial value chain, from OEMs, (high-tech) suppliers, subcontractors, and EMS providers
- Design and engineering experts
- Experts involved in the development of electronic products, like product designers, engineers, product managers, software developers, and system integrators
- And everyone interested in new technologies and developments in the area of 3D printing

Focus Topics

Printing technologies (aerosol jet, inkjet, extrusion) and 3D printing including multi-material processes • 3D-MID and In-Mould processes • Materials, such as conductive inks, pastes and polymers, ceramics, and dielectrics • Software and design • Hybrid approaches • Best practice examples

Very interesting ,all-around‘ on printed electronics in 3-dimensional space. From the state of research to processes, and industrial applications. Much competence in a small space – great conference, great network.

Christoph Völcker,
Würth Elektronik eiSos
GmbH & Co. KG

Interesting insights into state-of-the-art technology and future topics.

Simon Hame,
Ersa GmbH

Choose Your Package

Packages and prices

SERVICES	EXHIBITORS	BUSINESS SPONSORING
Exhibition area with two chairs and a table, WLAN, power supply	6 m ²	6 m ²
Event tickets	2	3
Naming of your company on the congress website incl. link to your website	✓	✓
Event catering	✓	✓
Presentation of your company logo in all marketing activities (online, newsletter, landing page)		✓
Your company and product info in the congress documentation (max. A4 brochure double spread)		✓
Unlimited amount of subsidized guest tickets for your customers and business partners		✓
Leads of attendees (name, first name, company, city) in pdf format		✓
Presentation of your short company profile (30 words) on the congress website		✓
Dispensing of promotional material, giveaways or the like at the conference counter		✓
All-inclusive price	2,000.- €	3,500.- €

All prices plus VAT

We Would Like to Participate

We present our company and services at the event on 7 October 2020
and book the following package:

- Exhibition Package (Price: 2,000.- €)*
- Sponsoring Package (Price: 3,500.- €)*

(All prices are net plus VAT)
