June 30<sup>th</sup> 2021 | Digital event

## Be a sponsor or an exhibitor!

**NEW 2021:** The digital event 'AM Stammtisch – Postprocessing' will bring together beginners to professionals in additive manufacturing who work with metal or polymer, as well as anyone who wants to exchange information about the variants and innovations in postprocessing.

# Overview of the event

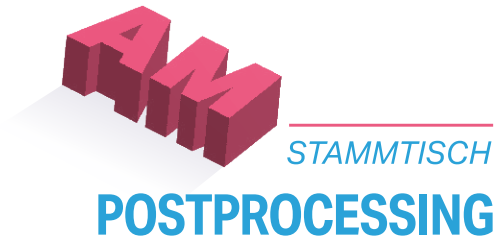

After the design and one or two misprints, the error-free printed component finally comes out of the machine. But now the work only begins, because every additively manufactured component requires postprocessing. The participants learn about the variants and innovations of postprocessing and discuss the topics of the lectures and their own experiences with the experts at our virtual regulars' table.

## Expected participants

125

### Expected participants

Technical experts, production managers and managing directors, from beginners to professionals in additive manufacturing, but also everyone who wants to find out about variants and innovations in postprocessing

## Key topics

Removing supports and detachment from the build plate

Unpacking and depowdering

Surface technology

Automated postprocessing

## Participation price

395 €
